

## Greencorner Rope Strap Installation Instructions

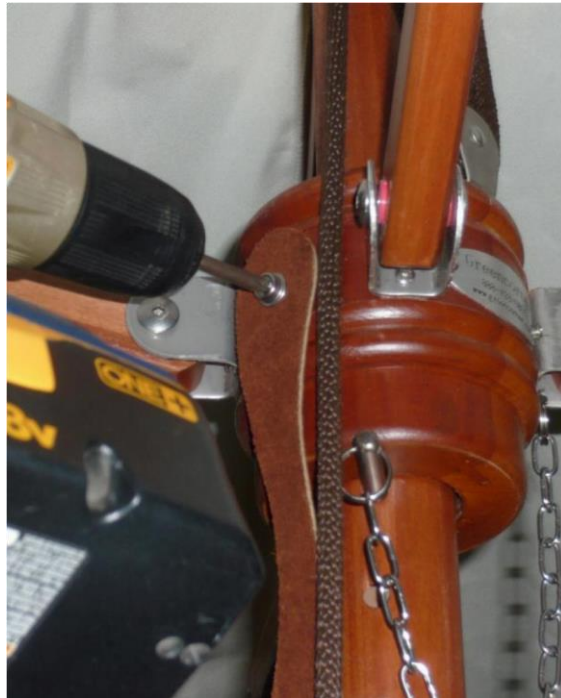

This handmade leather rope strap is intended to neatly store the rope when your umbrella is in use. Installation is fast and simple, and only requires only a power screwdriver.

1. Ensure the umbrella is in the open position, and the pin is fully through one of the holes on the pole.
2. **If your umbrella has four ribs:**  
Position the metal button screw of the rope strap between the ribs, immediately to the left of where the pulley rope naturally hangs. (*figure 2*)
3. **If your umbrella has MORE THAN four ribs:**  
Position the metal button screw of the rope strap below the ribs, immediately to the left of where the pulley rope naturally hangs. (*figure 1*)
4. Ensure the unfinished side of the leather is facing you. Screw the button screw into the hub through the hole on the strap using a power screwdriver. (*figure 2*)
5. To use it, simply loop the pulley rope, then use the metal snap to hold it in the leather rope strap. (*figure 1*)
6. **Enjoy the shade of your Greencorner umbrella!**
